EAR CANDLING

Ear Candling is a natural, painless and non-invasive healing technique that dates back to the ancient Egyptian, Chinese and Native American cultures. It is believed to cleanse the body on a physical as well as spiritual level by facilitating the release of toxins. This treatment begins with a facial massage, then the ear candling procedure, and is finished with a scalp massage to thoroughly move fluid out of the problem areas. (This service is contraindicated for anyone with an active ear infection, severe ear pain, ear tubes, perforated/artificial eardrums, or with hearing aids.)..... \$40.00

A series of these treatments with the addition of a chemical peel, topical vitamin treatments and a leave-on regenerating mask will increase cell renewal and collagen regrowth. You will see improvement in uneven skin tone and texture as well as fine lines and wrinkles. There is no faster way to brighten and renew your complexion.
